

Ten Podcast Topics for Students

- Summarize the week's lessons in their own words.
- Explain tween/teen culture to parents/ grandparents.
- Weather reports/ forecasts (shout-out to my friend Mal for that idea).
- News and sports shows.
- "This Day in History."
- "Math is Hard" - fun examples of bad math in the real world, like when my local McDonald's advertised apple pies at 2 for \$1 or 1 for \$0.49.
- Book critiques.
- Video game reviews and tips.
- "Know Your Classmates" podcast. One student interviews another to share fun facts like favorite hobbies, pets, or music.
- Short story podcast. Students write and then narrate short fiction stories. Check out [Story Spectacular](#) for some inspiration.
