

Create Formative Assessments with an AI Chatbot

In ChatGPT or your favorite AI Chatbot, cut and paste the following prompt to create formative assessments for your classroom. Simply replace each bracket with the information for each prompt.

Assessment Ideas Prompt

Generate a list of [number] formative assessment ideas related to [insert topic] for my [grade level and subject] students.

Example Prompt

Generate a list of 10 formative assessment ideas related to still life drawing for my 11th grade visual arts students.

Make the Prompt Work for You

- Ask ChatGPT to align your formative assessments with specific learning objectives and/or your summative assessments.
- Differentiate your formative assessments by asking ChatGPT to give you 5 assessment ideas using a variety of modalities (e.g., exit tickets, quick quizzes, graphic organizers, etc.)
