

Getting Started with Digital Escape Rooms

Course Companion Pack

**DITCH THAT
TEXTBOOK**

A note from Ditch That Textbook:

We hope you and your students enjoy these digital escape rooms! We created this digital escape room MEGA pack JUST for the participants of the Getting Started with Digital Escape Rooms course.

In this pack you will find links to each escape room along with the locks, answers and explanations. 10 of these escape rooms are ONLY available to you!

If you and your students are new to digital escape rooms it might be fun to try one out as a class so that you can experience it together. After that, you can assign these escape rooms to your students in groups or individually by giving them the direct link to the digital escape room (they don't need a special copy).

Click on the images like this one for links to the escape rooms.

Here are couple of tips to help you and your students feel successful:

- Take a look at what lock combinations you are looking for first.
- Share the link to the escape room with students, but don't share this teacher pack!
- Click everywhere, clues could be hidden inside of text, hyperlinked in an image or multiple links could be hidden inside of an interactive slide or picture.
- Don't give up. It's supposed to be challenging! Those answers are there for you in case you need to give little hints though.
- Watch this quick [video overview of our Halloween Haunt Digital Escape Room](#) to see what a digital escape room looks like.

You will notice that many alternatives of these escape rooms say "Coming Soon". Please know that we are working as fast as we can to try to recreate alternate forms of each escape room so that they are accessible to you and your students no matter which platform you use.

This document will be updated regularly as these resources are created. Also be on the lookout for MORE escape rooms added because you know we will be!

Still have questions? Take a look at our [digital escape rooms FAQ page](#) for answers to our most common questions.

Have fun escaping!

From,
Matt and Karly
