Here's 2 ways to generate a quiz from any website 3 pages

#1 - Head over to the website you want to create a quiz on and then:

- 1. Highlight the text from the website you want to include in your quiz
- Right-click and select "Copy" (or use Ctrl+C on PC, Cmd+C on Mac)

- Right-click and select "Paste" under Text (or Ctrl+V on PC, Cmd+V on Mac)
- 5. Then click Generate it's that easy!

Pro Tip: This option accepts up to 7,500 characters. If you need more than that, try the next prompt idea instead!

-			1/

travale de	awa a pathwa	v called the respi	ratony tract This tract inc	ludes your pere	mouth
travels di throat, w body get How Brea Now, let's	own a pathwa indpipe (or tra s the oxygen it thing Works dive deeper ir	y called the respi ichea), and lungs t needs and expe nto how breathing	ratory tract. This tract inc . Each part has a special Is carbon dioxide, the wa g works. When you inhale	ludes your nose job to do in mai ste product fron 9, or take a breat	e, mouth, king sure your n your cells. th in, your
travels di throat, w body get How Brec Now, let's Grade Leve	own a pathwa indpipe (or tra s the oxygen it tthing Works dive deeper ir	y called the respi ichea), and lungs t needs and expe nto how breathing	ratory tract. This tract ind . Each part has a special ls carbon dioxide, the wa q works. When you inhale Language	ludes your nose job to do in mai ste product fron a, or take a breat	a, mouth, king sure your n your cells. th in, your # of Question

#2 - Follow the same technique as above, instead this time:

1. Paste the website content into either Word, Google Docs, or Notepad

2. Save the document and then upload it to the **Document Tab**

3. Click Generate, and watch the magic happen

Pro Tip: To select all of the website text, right-click and select "Select All" (or use Ctrl+A on PC, Cmd+A on Mac) before copying it.

Go try them out! Stay tuned for more guides on getting the most out of Gibbly.
