

Prompt

Prompting is the first step when framing your request. By providing the prompt, you are setting the scene and creating a foundation for the rest of the instructions. It's vital to provide a clear and concise command. Avoid using vague or ambiguous language that could confuse.

Role

When you assign it a role, you help built context for the AI so that it can achieve what you want it to accomplish. It helps it know how to approach the question and provide an accurate and relevant response. You are essentially telling it what hat to wear for the task at hand.

Explicit

Be clear and specific about what you want it to do or what information you're looking for. Don't assume that it knows what you're thinking or what you need. By giving explicit instructions, you ensure it is on the same page as you.

Use your existing expertise to instruct it on:

- The pedagogical approach you want
- The subject knowledge you want it to focus on

Parameters

Setting clear parameters means defining the scope and boundaries of the answer, which helps it understand what

An example

Create a rubric for this task: Create a presentation on the 2008 Sichuan Earthquake. Act as a knowledgeable 8th grade Geography teacher, who is an expert at pedagogy and specialises in earthquakes. The task is for an 8th grade Geography class. The rubric should focus on demonstrating knowledge through SOLO taxonomy and include separate levels for the quality of presentation. Include examples of content in the rubric. The rubric should be presented in a table and be written at a reading level of 11 years old. After you have provided me with a draft rubric, ask me some follow up questions, in bullet points, so that you can provide a more thorough and quality response. Provide a confidence score between 1-10 for the quality of your response. Additionally, briefly explain the main reasons supporting your classification decision to help me understand your thought process. This task is vital to my career and will help my students develop their understanding. I greatly appreciate your work.
